- won First place in **CSI CYBORGS** Competition (2023).

PROJECT

PROJECT-1:   Dynamic Portfolio Web.

(HTML,CSS,JAVA SCRIPT, REACT.JS,TAILWIND CSS)

DESCRIPTION :

Developed a dynamic and interactive portfolio website to showcase professional skills, projects, and accomplishments. The website is designed with a user-friendly interface and responsive design to ensure accessibility across various devices.

RESPONSIBILITIES :

- **Interactive User Interface**: Designed a visually appealing and interactive user interface using React.js, incorporating modern UI/UX principles.
- **Responsive Design**: Ensured the website is fully responsive and optimized for different screen sizes, including desktops, tablets, and mobile devices.
- **Project Showcase**: Created sections to display detailed information about various projects, including descriptions, technologies used, and links to live demos or repositories.
- **Contact Form**: Developed a contact form with form validation and email notifications to facilitate easy communication with potential employers or clients.

PROJECT-2:   Netflix Clone.

(HTML,CSS,JAVA SCRIPT, REACT.JS,TAILWIND CSS)

DESCRIPTION :

Developed a full-featured Netflix clone, replicating the user interface and core functionalities of the popular streaming service. The project was designed to enhance user experience and provide seamless interaction with video content.

RESPONSIBILITIES :

- **User Authentication**: Implemented secure user login and registration using Firebase Authentication.
- **Responsive Design**: Ensured compatibility across different devices and screen sizes using Tailwind CSS.
- **Data Storage and Retrieval**: Used Firebase Firestore for real-time database operations, storing user preferences, and video metadata.
- Set up Vite for optimized development and build processes.
- The project improved my skills in front-end development, user authentication, and real-time database management.
